This Stentor Luxe Motor 1500, built in 2009 and launched in 2010, is a fine example of solid Dutch yacht craftsmanship. The yacht comes from its first owner. The spacious aft deck offers generous seating and direct access to the wheelhouse, which provides plenty of light and visibility thanks to large surrounding windows and two roof hatches. A cozy dinette is also located here. A staircase leads to the saloon with ample headroom, natural light and a practical layout. A comfortable space for daily use or longer stays on board. The yacht features two cabins, including an owner's cabin with a large double bed, roof hatch and private toilet. Additional amenities include a washing machine, central heating throughout the yacht and connections for a portable air conditioning unit. The Kabola heating system was professionally serviced in 2025. Technically, this Luxe Motor is fully equipped with a Mastervolt 3.5 kW generator (3000 rpm), remote controlled searchlight, rudder angle indicator, radio and new batteries in 2024. The antifouling was also renewed in 2024. With an air draft of approximately 2.90 meters with everything lowered, the yacht is well suited for canals and low bridges. The radar remains upright. Practical features such as wide side decks, stainless steel guardrails, bicycle racks on the foredeck and no fewer than ten stainless steel bollards offer additional convenience. A well maintained and complete Luxe Motor, perfect for those who want to cruise without worries and live comfortably on board. At this moment this yacht is located in the North of France and can be visited by appointment. We like to make an appointment with you for the visit of this beautiful Stentor Luxe Motor 1500.

For questions and/or to make an appointment you are welcome 7 days a week at Elburg Yachting.
